

Spring Seminar

PLANTING IN CONFINED SPACES

The days of the quarter acre section are a thing of the past. Few modern-day Mums are able to indulge in 'garden therapy' while their kids are at school.

What are the options for busy people considering the 'greening' of their tiny garden, their courtyard, their apartment balcony, their planters?

Join us at 4.30 pm on Tuesday August 26
to look at possible solutions.

Drinks, nibbles and like-minded company provided.

This will be an outdoor function. While there will be some shelter, come prepared for outdoor conditions and some walking on gravel paths.

Seminars will begin at 4.30 pm. To ensure a prompt start, please allow time before this to register and to unwind with a drink and a bite.

Come early if you are able and check out our extensive stock, now looking great and ready for a good home. Or take a ramble through the grounds for inspiration.

**RSVP giving names and a contact phone number by Friday 22 August.
Numbers limited.**

Regards,
The Oratia Native Plant Nursery Team
